Council Consideration Questions.pdf; Resolution Bellevue Drinking Water Improvements.pdf;

Mayor and Council Members,

Attached are materials I have prepared regarding project governance, transparency, reporting, and oversight for consideration during tonight's workshop discussion.

No response is requested. I am not seeking discussion outside of the public meeting and would ask that any discussion of these materials occur during the workshop or a future properly noticed meeting.

The materials are intended as a starting point for discussion and possible future agenda consideration if Council determines additional review is appropriate.

Thank you for your consideration.

ADDITIONAL NOTICE REGARDING THESE MATERIALS

These materials are being provided solely for informational and discussion purposes in connection with the upcoming public workshop. They are intended to assist Council members in considering governance, transparency, reporting, and oversight issues associated with the Drinking Water Improvements Project and other major public infrastructure projects.

No response is requested, and I am not seeking discussion of these materials outside of a properly noticed public meeting. I respectfully request that any discussion, deliberation, feedback, or consideration of the matters addressed herein occur during a public meeting so that residents may observe and participate in the discussion.

These materials are offered as a draft framework for consideration only. They are not intended to require action at the workshop, nor are they intended to prejudge any future Council decision. Council members may determine that portions of the proposal warrant further study, revision, referral, or future agenda consideration.

The objective of this submission is to support constructive discussion regarding governance, transparency, fiscal stewardship, project oversight, and public confidence in the administration of significant public infrastructure projects.
